7. At this COP, Parties are being urged to raise ambitions. In Malaysia's view, the key to unlocking this level of ambition lies squarely in Article 4.7 of the Convention. It hinges on the notion that equity and the principle of common-but differentiated responsibilities and respective capabilities.
8. We would like to recall that the Convention obliges developed country Parties to lead mitigation actions. Hence, we urge developed countries to fulfil their reporting obligations and enhance actions to fill emissions reduction and means of implementation gaps in the pre-2020 period. Additionally, the replenishment of the Green Climate Fund is of paramount importance.
